ANPR
We're driven to go further

How we can help you

Cloudpass is a market leading provider of Automatic Number Plate Recognition (ANPR) solutions. Our cloud-based system allows for complete control of your car park from anywhere in the world whether this is a single office car park or multiple car parks across large distances. We offer a bespoke ANPR solution that is designed to be easily customisable and tailored to your business. Designed to be used in high traffic environments, we guarantee our solutions are fit for purpose and maintain high levels of security..

Smart Match

A unique feature of CloudPass is our Smart Match technology. We can allow vehicles to be granted access even if the ANPR camera misread the users number plate.

Vehicle Tracking

Do you need insight on how many times that vehicle has been to your site? We offer a wide range of reports that provide you with the data and insight you need to stay at the top of your game.

Advanced Analytics

The CloudPass reporting suite offers advanced analytics for your sit. From seeing your busiest periods to flagging users who overuse your site.

Delivery Management

Need to schedule your deliveries? Need to arrange staff or specific equipment to be present on arrival? With our delivery management solutions we take the hassle out of the troubles you face.
